

PROJECT
ONE CAMPUS

WARWICK INDEPENDENT SCHOOLS FOUNDATION

SIXTH FORM
THE BEST OF BOTH WORLDS

The Best of Both Worlds

We are delighted that we are now able to offer the best of both worlds for our Sixth Formers. Whilst we are committed to delivering single sex education in the classroom, with girls and boys able to develop and enjoy a broad range of opportunities without constraint from gender stereotypes, we also recognise the social benefits of a co-education environment.

Outstanding Results

We are committed to providing an outstanding quality of teaching across our two vibrant and thriving Sixth Forms. This commitment is illustrated in the exceptional results that our boys and girls continually achieve.

Outside the Classroom

We recognise the importance of extending your studies beyond the classroom as well as developing other skills to equip you for life beyond Sixth Form.

Our pupils collaborate in Music, Sport, and Drama, as well as a host of extra-curricular clubs and activities. This includes our joint Friday afternoon programme with over 50 activities from which to choose, providing you with the opportunity to participate in one of a range of varied and valuable co-curricular activities intended to extend and enrich your education.

Higher Education Support

Whatever route you choose after A Levels, our staff will support you in your decision making and when making applications. This includes advice about UCAS, and specialist support for medical applications, Oxford and Cambridge applications, overseas universities, as well as routes into Art, Drama and Music colleges.

A Levels & Academic Enrichment

Our schools offer a wide range of A Level subjects – over 20 each – with some being taught collaboratively. You will take the three A Levels most universities require, although some of our pupils (including those taking Further Mathematics) have the opportunity to take four.

In addition to the broad curriculum we offer, we also offer the Extended Project Qualification (EPQ) at both schools. The EPQ is a highly regarded qualification that helps you learn the skills required for independent learning. The qualification is worth half an A Level and encourages skills in critical and analytical thinking as well as project management skills – excellent preparation for your future studies at university.

Other academic enrichment activities abound, from the many academic societies run by the pupils, to the Science in Action programme which enables pupils to undertake independent scientific research in our excellent laboratories. You will be encouraged to be involved in at least one of these enrichment activities in addition to your A Level studies.

Brand New Shared Sixth Form Centre

The shared Sixth Form Centre will open in September 2019 and has been designed to help you make the most of your Sixth Form years, and support your transition to life beyond school. The Centre provides space for private study for both boys and girls, and opportunities to socialise together:

- Large social space on the ground floor with a self-service kitchen and café
- Careers Hub with interview rooms
- Group and private study spaces
- Outside terrace – the perfect place for you to take a break between studies

Preparation for Life Beyond School

The Careers Hub will be based in the new shared Sixth Form Centre and will provide you with guidance on choosing a university or your chosen career path as well as a diverse range of in-house careers events and talks from universities.

Project One Campus

Project One Campus sees the move of King's High School to the Myton Road campus, joining Warwick Preparatory School and Warwick School on one spacious, green campus.

The project commenced in 2017 and will be fully completed in 2020. It will see the creation of new school buildings that have been sympathetically designed within an enhanced pedestrian-friendly campus, linked green spaces and courtyards.

Our Sixth Forms

Our Sixth Forms are widely recognised as being vibrant and innovative, with the success of our students beyond school testament to their dedication and the expert support of their teachers. Find out more in our Sixth Form brochures.
