

TRAIN AS A PHYSICS TEACHER AT WARWICK SCHOOL AND KING'S HIGH SCHOOL

September 2022

Warwick School and King's High School (two leading independent schools both graded Excellent in their recent ISI inspections) are seeking to recruit good graduates, including those looking to change career, to train as secondary school Physics teachers.

This year long, entirely school based training, leading to the award of QTS (Qualified Teacher Status) and a PGCE, will take place on the Warwick Independent Schools Foundation Campus with placements available at both local state and independent schools. Both schools have a long and successful record of inspiring students to study Physics, facilitating the achievement of high academic results and filling students with a love of science. The scheme will be led by subject experts at the two schools.

Warwick School and King's High School are collaboratively leading the Warwick Regional Hub of the National Mathematics and Physics School Centred Initial Teacher Training Scheme (NMAPS).

More information, including eligibility criteria, can be found at: <http://www.nmapscitt.org.uk/> or by contacting Rosemary Chapman on nmaps@warwickschools.co.uk

Successful applicants are eligible to apply for tax free bursaries from the Department of Education and scholarships from the Institute of Physics (currently £24,000 and £26,000 respectively). More information can be found from the website: <https://getintoteaching.education.gov.uk/funding-your-training>

Application is through the DfE Apply website:

<https://www.find-postgraduate-teacher-training.service.gov.uk/course/2H8/38BC>

Our schools are committed to safeguarding and promoting the welfare of children and young people and expect all staff and volunteers to share this commitment. All appointments are subject to a satisfactory DBS check.
