

TRAIN AS A PHYSICS TEACHER AT WARWICK SCHOOL AND KING'S HIGH SCHOOL

September 2019

Warwick School and King's High School (two leading independent schools both graded excellent in their recent ISI inspections) are seeking to recruit good graduates, including those looking to change career, to train as secondary school physics teachers.

This year-long training, leading to the award of QTS (qualified teacher status) and PGCE, will take place on the Warwick School Campus with placements available at both local state and independent schools. Both schools have a long and successful record at inspiring students to study physics, facilitating the achievement of high academic results and filling students with a love of their subject. The scheme will be led by subject experts at the two schools.

Warwick School and King's High School are collaboratively leading the Warwick Regional Hub for the National Maths and Physics School Centred Initial Teacher Training (SCITT). More information, including eligibility criteria, can be found at <http://www.nmapscitt.org.uk/> or by contacting Rosemary Chapman on nmaps@warwickschools.co.uk

Successful applicants are eligible to apply for the £26,000 bursaries available through the Department for Education or £28,000 scholarship. More information can be found from the website:

<https://getintoteaching.education.gov.uk/funding-my-teacher-training/bursaries-and-scholarships-for-teacher-training>

For trainees who left education some time ago, there are subject knowledge enhancement courses of various lengths available, for which trainees receive payment for completing. Application is through the UCAS website: <https://find-postgraduate-teacher-training.education.gov.uk/course/2H8/38BB>

Our schools are committed to safeguarding and promoting the welfare of children and young people and expect all staff and volunteers to share this commitment. All appointments are subject to a satisfactory DBS check.
